

# Climate Target Policy

Teknoservice S.L. is committed to reducing its greenhouse gas (GHG) emissions in line with climate science and international standards.

The company has established 2019 as the baseline year for its emissions, based on its corporate GHG inventory prepared in accordance with ISO 14064-1.

Teknoservice commits to reducing its absolute Scope 1 and Scope 2 greenhouse gas emissions by at least 42% by 2030, compared to the 2019 baseline year. This corresponds to an average annual reduction of at least 4.2%, aligning with climate science requirements.

The company implements annual environmental objectives and continuous improvement plans, including energy efficiency measures, renewable energy adoption, and sustainable transport initiatives.

Progress is monitored annually through the corporate carbon footprint calculation. Emissions have decreased significantly from 38.86 tCO<sub>2</sub>eq in 2019 to 13.17 tCO<sub>2</sub>eq in 2024, demonstrating a strong reduction trajectory.
